

Customer Billing and Payment Management System

🔍 Overview:

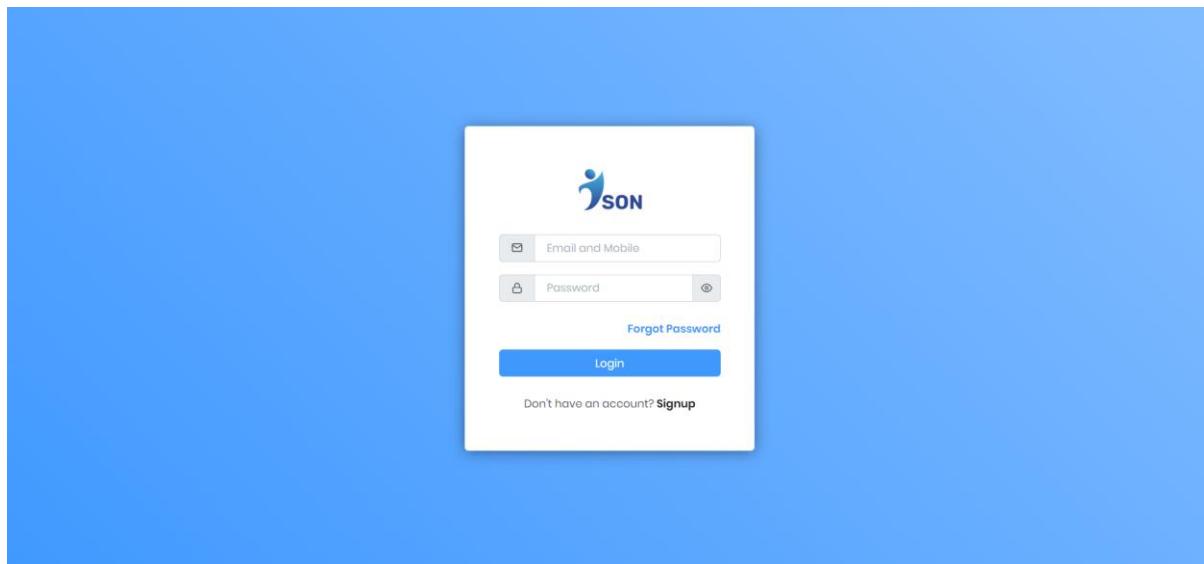

This project is designed to manage customer information, billing, and payments efficiently. The main goal is to simplify customer tracking, invoice generation, and payment recording, providing a full financial overview for each customer.

⚙️ Key Features:

- **Customer Management:** Create and manage customer profiles with essential details.
- **Billing Module:** Generate new bills/invoices for customers with automatic calculations.
- **Payment Management:** Add and track payments received from customers.
- **Service & History Tracking:** View full payment and bill history per customer for better insights.
- **Dashboard Summary:** Quick view of total customers, outstanding payments, and billing status.

❖ Tech Stack:

- **Frontend:** Angular
- **Backend:** .NET Core
- **Database:** SQL Server
