

# Quick AlgoPlus

Quick AlgoPlus is a dynamic platform for market insights, real-time share prices, and order management. Features include Market View for updates, seamless Order Management, Broker Integration, and advanced Signals for decisions. Market Tools offer analysis and strategy optimization, while API Documentation ensures easy integration. The Strategy View enables traders to design and test trading strategies, making Quick AlgoPlus a comprehensive, efficient trading solution.

Skills and deliverables :- .Net, Angular, SignalR and AngularJS

The screenshot displays a financial trading interface. At the top, it shows real-time price data for several indices and stocks:

- NIFTY 50:** 24192 (down 2.5)
- NIFTY BANK:** 52057.3 (down -134.2)
- NIFTY FIN SERVICE:** 24063.1 (up 16.3)

Below this is a navigation bar with links for **NSE1**, **FUTURES**, **MCX**, and **OPTIONS**. A search bar allows users to "Search Product Name" and add it to their watchlist.

The main content area features a detailed view of the stock **DIVIS LABORATORIES LTD.** (BSE code: 501425). The chart shows the stock's performance over the last 10 days (1D). The current price is 6,142.25, with a high of 6,148.85 and a low of 6,009.30. The volume is 7,75K. The chart uses green and red bars to represent price movements, with a vertical dashed red line at the top indicating the current price level of 6,071.65.

## Dashboard

The screenshot shows a trading interface with a search overlay. The search bar contains the text "baja". Below it, two suggestions are listed: "BAJAJFINSV" and "BAJAJ-AUTO", each with a green circular icon and a plus sign. The main chart area displays a candlestick chart for a financial instrument from May to December. A large red watermark reading "partial" diagonally across the chart. The top navigation bar includes links for Home, Order, Brokers, Signals, Market, Tools, and QA520, along with a user profile icon.

```

## Tools (Api Docs)

The screenshot shows a trading application interface. At the top, there is a navigation bar with links for Order, Brokers, Signals, Market, Tools, and QA520. A red notification badge is visible on the Tools link. On the right side, there is a user profile sidebar with options for Profile, Change Password, Logs, Allow Signals, and Logout.

Below the navigation bar, there is a table header with columns: ID, SYMBOL, CATEGORY, BROKER NAME, TYPE, ORDER TYPE, QUANTITY, TRIGGER, LTP, P/L, and STRATEGY. The table body displays a message: "No data available in table".

At the bottom left, it says "Showing 0 to 0 of 0 entries". At the bottom right, there are "Previous" and "Next" buttons.
